

Ealing Canoe Club

Boat Storage Policy

July 2014

This policy sets out the conditions under which private boats may be stored at Ealing Canoe Club

- Boat Storage will be approved by committee. Applications should be made to the Buildings Officer.
- All racking is the property of Ealing Canoe Club and will be rented out on an annual basis.
- Racking availability is subject to change.
- Where possible we will aim to make ONE rack available to members chargeable at the appropriate fee.
- If racks are available, consideration will be given to members with a second boat, chargeable at the appropriate fee. Second boats can be racked on an understanding that, should a higher priority boat require storage, the second boat should be removed and racking fees will be refunded on a pro rata basis.

Racks will be allocated according to following order of priority:

1. Club equipment
2. Private boats used for general club purposes
3. The first boat privately owned and in regular use by a club member
4. Additional boats owned by club members
